WORK EXPERIENCE

Shift Supervisor September 2024 - July 2025
Tim Horton’s Burlington, ON

- Supervised daily operations and financial transactions, balancing tills, handling deposits, and resolving discrepancies with accuracy.
- Delivered exceptional customer service by listening attentively to customer needs and resolving concerns calmly and professionally.
- Trained and mentored team members, fostering a supportive and respectful work environment focused on teamwork and productivity.
- Adapted quickly to changing priorities during peak periods, exercising initiative to maintain operational flow.
- Demonstrated leadership by maintaining shift reports, addressing customer escalations, and ensuring all processes aligned with company policies.

Product Verification Specialist (Co-op)

January 2024 - August 2024

Evertz Microsystems Ltd.

Burlington, ON

- Utilized testing tools to analyze system logs and configurations, identifying patterns and root causes for proactive troubleshooting, improving system reliability.
- Managed networking devices and configurations via CLI and Linux commands, applying practical skills in IP assignment, network troubleshooting, and system administration.
- Researched, installed, and configured virtualization platforms by evaluating hypervisors and deploying Virtual Machines, assessing performance, scalability, and stability across multiple operating systems.
- Leveraged JIRA for issue tracking and Confluence for collaborative documentation, optimizing problem-solving and ensuring organized knowledge sharing for continuous improvement.
- Compiled and analyzed system log data, creating case studies and reports with data visualization techniques to effectively communicate insights and resolve customer issues.

Team Member

July 2022 - December 2023

Tim Horton's

Burlington, ON

- Provided exceptional customer service in a fast-paced environment, demonstrating active listening and problem-solving skills to resolve concerns.
- Processed daily transactions (cash, debit, credit) with precision, adhering to procedures and maintaining accuracy in all financial exchanges.
- Fostered positive team dynamics through collaboration, supporting colleagues to enhance productivity and maintain a respectful work environment.
- Adapted to changing priorities, ensuring operational efficiency during peak periods while demonstrating flexibility and reliability.

Logistics Administrator

November 2021 - June 2022

Evertz Microsystems Ltd.

Burlington, ON

- Coordinated and dispatched domestic and international shipments through carriers such as FedEx, UPS, Purolator, and DHL, ensuring timely deliveries and adherence to strict deadlines with precision and organizational skill.
- Prepared and processed shipping documents (shipping labels, invoices, customs forms, and bills of lading) with a focus on accuracy and compliance, ensuring error-free order fulfillment.
- Communicated effectively with customers via email and phone, providing timely updates on order status and resolving logistics challenges, particularly around customs delays.
- Collaborated cross-functionally with internal teams to expedite the release and shipment of products.
- Maintained and updated the Sales Web system, ensuring data accuracy, streamlining record-keeping, and improving accessibility, enabling smoother operations and greater efficiency across departments.
